Welcome

Congratulations on your vehicle purchase and on your foresight in purchasing Autosure Electric Vehicle Breakdown Insurance so that you can enjoy worry-free motoring.

Please take time to familiarise yourself with this material. You need to know and understand this information.

Your insurance contract consists of this booklet and your Policy Certificate. Together these documents set out the terms and conditions of your cover. Please note that the Policy Certificate must accompany this booklet and the premium must be remitted to Autosure to ensure the validity of the policy. Your vehicle details are shown on your Policy Certificate.

If your vehicle details are incorrect in any way with regard to make, model, year or odometer reading, then you may not qualify for the extent of cover you have selected. It is your responsibility to ensure the Policy Certificate is attached and all the details contained in your Policy Certificate are correct.

In particular, you should note that this insurance policy might not cover you if you do not follow the manufacturer's operating, servicing and safety instructions at all times.

To enjoy long and reliable use of your Lithium-ion Battery please follow the manufacturer's instructions, as incorrect charging may void the cover. If the vehicle requires towing it can only be transported using a flatbed tow-truck by an authorised repairer or the AA.

Privacy Act 1993

Your Certificate contains personal information necessary to evaluate your proposal for insurance in order to decide whether to issue insurance cover and if so on what terms. The information collected will be held by DPL Insurance Limited, Autosure, 12-14 Northcroft Street, Takapuna, Auckland 0622, the dealer and these entities' agents.

Failure to provide any relevant information may result in cover being declined or the policy being voided. Individuals have a right to request access to and correction of their personal information subject to the Privacy Act 1993.
